The ABC Committee intended to hear the case for Trusty's substantial change in their license agreement for the installation of Dragon's Ascent electronic games of skill machines. These machines are fairly new to the district.

The committee has the following questions for Trusty's:

- 1) Why is Trusty's interested in installing these machines? What is the intent?
- 2) Where will it be located within the establishment?
- 3) What security measures will be taken?
- 4) What is the plan to distribute winnings/ cash?
- 5) Will there be an enforced age limit to use the machine?
